PROFILE

Software developer focused on the design and implementation of scalable web applications and desktop solutions in the healthcare, automotive, and e-commerce sectors. Demonstrated experience delivering comprehensive solutions using .NET, Angular, and cloud technologies, with a strong focus on user-centered design and business impact. I am looking to leverage my technical expertise and problem-solving skills in a challenging end-to-end development role.

PROFESSIONAL EXPERIENCE

GENSOFT CORP – New Jersey, USA

Web Developer Intern 2022

- Contributed in the development of the company's main e-commerce site using .NET, Angular, and SQL Server.
- Work autonomously throughout the development cycle, from design to implementation, solving complex technical challenges without direct supervision.
- Enhanced experience in front-end-back-end integration, relational database management, and production web application development.

Freelance Software Developer – Santiago D.R.

DentalCareDE, 2023

- Developed a dental practice management solution, developed in C# / Windows Forms, along with SQL Server.
- Designed user-centered interface with Figma, reducing appointment scheduling time by 40% and streamlining clinical workflows.
- Implemented secure authentication system with role-based access, data validation, and advanced search functionality.

Elipson-RentCar, 2024

- I developed a complete web solution using .NET, Angular, SQLite, and SQL Server, covering automated bookings, fleet management, and real-time availability.
- Created responsive admin dashboard for both end-users and administrators (project completed, deployment postponed due to client business constraints)

MeetTown – Ordering App for Butcher Shops (Collaboration with Mgilsoft), 2025

- Responsive web application developed with .NET, Angular, and MySQL, deployed on Azure.
- Enabled sales representatives to process orders independently from legacy systems, increasing operational flexibility by 60%.
- Implemented custom weight-based pricing algorithms and real-time inventory integration for meat products distribution

EDUCATION

AUTONOMOUS UNIVERSITY OF SANTO DOMINGO–

Santiago, Dominican Republic

Bachelor in Computer Science, December 2025

Udemy

Master Angular, ASP.NET & Firebase

SKILLS

- **Languages:** C#, JavaScript, TypeScript, SQL.
- **Frameworks & Lib:** .NET, Angular, React, Bootstrap, Sass, Tailwind.
- **Databases:** SQL Server, MySQL, SQLite, PostgreSQL.
- **Tools & Platforms:** Git/GitHub, Docker, Azure, Figma.
- **Practices & Method:** Agile Dev, MVC Architecture, CI/CD, Responsive Design, Collaborative Development, Problem-Solving, UI/UX
